

**Notes:**

- Make sure to turn off "Scale" in printer prefs before printing.
- Turn on "Fit to printable" in printer prefs before printing.
- For best results cut with fine pointed knife and metal safety ruler.
- **Please be careful, and supervise children. Only you yourself are responsible for your safety.**
- Superglue or similar is best for gluing the tabs.
- Before folding, it is recommended to draw along the bending lines with a ballpoint pen.
- Use the thickest paper your printer will take. For example suitable paper density 300gsm.
- Fan holes can be cut on the "Top side".
- If you are distributing this work, be sure to include the author. Thank!
